SUMMARY

Backend-focused Full-Stack developer, CS student at JIS College of Engineering, skilled in building scalable webApps and end-to-end applications that users actually uses. Built multiple AI-integrated projects and a Top 5 Finalist at GFG Kolkata Hackfest 2026. Recently built OSConnect that has 1000+ active users.

PROJECTS

- DropTalk** | *Typescript · Next.js · Socket.IO · Redis · WebRTC · Multer* [Live](#) [GitHub](#)
- Developed a End-to-End encrypted real-time workspace messenger where bold Bauhaus Constructivist aesthetics meet zero-trust security. It transforms team collaboration into a seamless blend of functional modern art and uncompromised privacy.
- HoopIt** | *React · Node.js · Express.js · MongoDB · JWT · Leaflet* [Live](#) [GitHub](#)
- Built a full-stack URL shortener with real-time click analytics, geolocation tracking, and an interactive Leaflet map dashboard. Backend follows DAO/Service/Controller architecture with JWT auth.
- PrepDost** | *React · Node.js · Express.js · MongoDB · JWT · Google Auth · Gemini API* [Live](#) [GitHub](#)
- Built a full-stack mock interview platform integrating Gemini API for dynamic question generation with timed sessions, AI-powered feedback scoring, and performance insights. Secured with JWT and Google OAuth.

SKILLS

Programming Languages : Typescript, JavaScript, Python, C++

Frontend : Next.js, React.js, HTML, CSS

Backend : Typescript, Node.js, Express.js, REST API Development, JWT Authentication, Google OAuth

Database : MongoDB, Supabase, Firebase, Postgress SQL

Tools & Platforms : Git, GitHub, Vercel, Postman, VS Code

CS Fundamentals : Data Structures & Algorithms, Operating Systems, DBMS, Computer Networks, System Design

EXPERIENCE

- SDE Intern** Aug 2026 – Present
PHICSIT InfoTech Pvt. Ltd. Remote · Internship
- Developing scalable backend services and full-stack features for production-ready web applications.
 - Collaborating with the engineering team to build, test, and maintain software solutions.
- Full-Stack Developer Intern** Sep 2025 – Jun 2026
Sewakunj Technologies Remote, Gujarat · Internship
- Built and maintained MERN stack web applications with RESTful APIs and MongoDB.
 - Implemented backend features, fixed bugs, and contributed to production deployments.

ACHIEVEMENTS & ACTIVITIES

- Winner / Runner-Up**
- Achieved **1st Runner-Up** at JISTECH App-E-Teaser for an Offline Messaging App project. April 2026
 - Selected as **Top 5 Finalist** (out of 60 teams) at GeeksforGeeks Kolkata Hackfest 2k26. March 2026
 - Secured **2nd Runner-Up** in department at JISTECH for project “Breast Cancer Detection.” May 2025
- Hackathons Participated** 2023 – Present
- Binary V2 (KGEC), Smart India Hackathon 2024 & 2025, Gen-AI Exchange (ML Kolkata) 2025, STATUS CODE 2 Hackathon 2025.
- Community Member** | *DevDotCom Coding Community* Feb 2024 – Present
- Active core developer at DevDotCom, regularly participating in all events and contributing to community projects.

EDUCATION

- JIS College of Engineering** June 2023 – Present
Bachelor of Technology in Computer Science Kalyani, West Bengal
- Coursework**: Backend Development, Data Structures & Algorithms, Operating Systems, DBMS, Computer Networks, System Design.
